

The Toy Foundation™ 2023 Annual Report

The Toy Foundation™ is the uniting force for the collective philanthropy of the toy industry for the benefit of all children in need.

We accomplish this through strategic partnerships, high impact grant making, effective programming, and toy donations. Together we have a greater impact to serve and support children, allowing them to experience comfort and joy and the promise of a life fulfilled through play.

LETTER FROM THE EXECUTIVE DIRECTOR & BOARD CHAIR

Dear colleagues and friends,

Thanks to your support, we delivered the joy of play to more than **680,000 children** around the world in 2023.

As *Your Foundation* we are committed to working with small, medium, and large companies to create a world where every child has the opportunity to experience the extraordinary physical, emotional, and educational benefits of play. By uniting your collective philanthropy, we serve more children, deliver measurable value to your unique business and philanthropic goals, and advance the industry for a brighter tomorrow. This is evident in the impact you have generated across our three programs:

- The Toy Bank has served more than **31.5 million children** worldwide since 2003.
- Play Grants has helped **360,000 hospitalized children** heal through play since 2021, and delivered comfort to thousands more in humanitarian settings.
- DEI Pipeline Program has introduced **150 college and university students** to the industry since 2022.

Additionally, the industry's passion for play was displayed at the 2023 Toy of the Year® Awards as we showcased the impact of your philanthropy, celebrated the creativity and accomplishments of the toy industry, and fundraised to support **50,000 children**.

We are honored and humbled to have been trusted by more than **300 companies** in 2023 through their support of our mission work and industry events. Please, take a moment to read the remarkable impact we had on children in need in 2023.

In 2024, join us in expanding our impact to support 800,000 children with the benefits of play. We can only accomplish this with your collective support. We look forward to serving the entire toy industry, engaging companies of all sizes, and supporting your philanthropic and business objectives. Please, reach out to learn more and get involved.

With great appreciation,

Pam Mastrota
Executive Director
The Toy Foundation
pmastrota@toyfoundation.org

Andy Quartin
Board Chair, The Toy Foundation
CEO, Thames & Kosmos, LLC
andrew@thamesandkosmos.com
401-335-0482

Our vision is to create a world where every child has the opportunity to experience comfort, joy, and the extraordinary physical, emotional, and educational benefits of play.

Play improves lives, relationships, learning, health, and our communities.

The Toy Bank is the toy industry's turnkey corporate social responsibility solution for inventory management, tradeshow service, and equity and inclusion initiatives. We collect new toys, books, and other playthings and distribute them to millions of children in need around the world through our network of 500+ qualified nonprofits, non-governmental organizations, children's hospitals, and international relief organizations.

Since 2003:

**31.5 million
children
served**

**\$291 million
in toys
delivered**

*“The parents were so excited their son received a superhero action figure donated by The Toy Foundation. Prior to immigrating to the U.S. he had a lot of them, and the parents were looking to see how they can get some so he can play.”
– Youth Leader*

500,000 children in need had access to the joy of play thanks to the toy industry’s 2023 donations of dolls, games, playsets, plush, and more. This impact is the result of nearly 300 unique product donations, a 120% increase compared to the previous year.

The worldwide collection and distribution to children included:

- **1.9 million** toys collected and delivered to children’s charities throughout the United States.
- **33,800** toys collected at Toy Fair[®] and distributed to 10 New York City-based nonprofits, as well global disaster relief and children’s hospital-focused organizations.
- **81,700** toys delivered to children and families in response to emergent situations in Ukraine, Hawaii, and Middle East.

Thank you to all our Toy Bank donors! See the list of 2023 donors in the appendix.

Play Grants

Our willingness to relieve the suffering of others defines us as individuals and as an industry.

Play Grants is focused on delivering comfort and the healing benefits of play to children’s hospitals that serve under-resourced communities through annual grant distribution and year-round product donations. Additionally, the program is a turnkey solution for small, medium, and large companies to swiftly respond to emergency situations and support displaced children around the globe with monetary or product donations.

**360,000
children**

**in hospital settings have healed
with the power of play
since 2021**

\$6.1 million

**in emergency relief delivered to
children worldwide since 2022**

Children's Hospital Play Grants

In 2023, **185,000 children** at 19 under-resourced children's hospitals had access to play during their healthcare journey to ease their anxiety, normalize their environment, and support a faster recovery.

Hospitals are reliant on external funding to provide these extraordinary benefits of play. Children's Hospital Play Grants continues to help fill this need, funding more than \$425,000 in play therapy projects in 2023.

Coping kits, sensory stations, technology-enhanced adaptive play systems are among the play projects that have improved children's health outcomes, as well as provided a morale boost for their families and helped staff to administer the best care possible.

See the list of hospital grantees and play project details in the appendix. Read a detailed impact report [here](#).

“Play is amazing for Jordan. It’s one of his main coping mechanisms ahead of procedures and is a good incentive to cooperate with what the doctors need him to do.” – Jordan’s Mom

Emergency Relief Play Grants

Play offers comfort and hope to children and families as they navigate natural disaster, war, or other humanitarian crises.

In response to the devastating Turkey-Syria earthquakes, wildfires on the Hawaiian island Maui, Israel-Hamas war, and continued Russia-Ukraine war, companies of all sizes donated **\$1.3 million in monetary and product donations** in 2023. This collective support builds a scalable program with measurable impact that advances the industry.

To ensure the donations collected create the greatest impact possible, we have established relationships with international relief partners, local social service organizations, and global toy associations active in the areas of need.

“Despite the war in Ukraine, the importance of providing children with a safe and enjoyable environment for their summer break cannot be underestimated. The funding and toys from The Toy Foundation brought much comfort, joy, and inspiration to all our children.”

***– KIDDISVIT CEO and Ukrainian Toy Association
President Pavel Ovchynnikov***

Diversity, Equity & Inclusion (DEI) Pipeline Program

Diversity leads to better outcomes, improved strategy, more creative thinking, and a stronger toy industry.

Our DEI Pipeline Program engages talented, diverse college and university students, builds their awareness around careers in the toy industry, and recruits them into internship and first-hire roles with Toy Association™ members. Toy companies of all sizes connected one-on-one with the next generation of leaders through two collegiate case study competitions and a curated DEI agenda at Toy Fair, producing **one job and six internship offers** in 2023.

150 diverse students

introduced to the toy industry since 2022

DEI Pipeline Program

Collegiate Case Study Competition

Eighty students from University of Maryland examined the impact of philanthropy, corporate social responsibility, and DEI within the industry in 2023. With guidance from industry experts at Crazy Aaron's, Jazwares, The Dr. Lisa Company, In Kidz, Mattel, Paramount, Thames & Kosmos, and Walt Disney Company, they refined their case solutions and presented inventive ideas, including an authentic line of religious dolls, multicultural playing card box set, and multilingual learning plush.

DEI Capstone at Toy Fair®

In October 2023, students involved in the case study competition, along with local New York City college and university students, participated in our curated agenda of educational workshops, networking sessions, and recruitment opportunities focused on creating a more diverse and inclusive industry. Jazwares, Horizon Group, Mattel, and Target, among others, were integral partners in developing multiple days of informative, well-rounded content.

“I’m so grateful to have had the opportunity to participate in The Toy Foundation’s DEI Capstone at Toy Fair. There’s no way that I would have connected with R&R Games and gotten this job without it.” – Gem Miller

Toy of the Year® (TOTY®) Awards

The power of play was proudly displayed at the 2023 TOTY Awards, the kick-off party to Toy Fair. We welcomed 800 guests to this media and entertainment driven event which showcased the best of the best in the industry and **raised more than \$1 million to support our programs** delivering the extraordinary benefits of play to children in need.

Guests were greeted with a purple carpet lined with media and influencers, networking reception with craft cocktails and games, and an event program that celebrated 25 prestigious award winners, honored the lifetime achievement of the Toy Industry Hall of Fame inductees, and showcased the impact of our work. An auction of stand-out collectibles and experiences created excitement throughout the night, before Grammy Award-winner Wyclef Jean took to the stage with an exclusive performance.

TOTY Awards Publicity

The TOTY Awards finalists and winners were publicized across national and local media outlets and influencer content, as well as through promotional video and social content that placed companies and products in front of thousands of consumers and industry professionals.

Results:

1.4 billion media impressions

(Broadcast, Print, Online, YouTube)

Influencer campaign yielded 2.9 million social media impressions & 99,600 engagements

(Instagram, TikTok, YouTube, Facebook, X)

I had a toy-riffic time at The Toy Foundation's Toy of the Year Awards! I sure had a lot of fun interviewing all the celebrities from the toy world here tonight!"

HOW TO GET INVOLVED

The Toy Foundation depends on the generous support of individuals, companies, and foundations to operate its Toy Bank, Play Grants, and Diversity, Equity, and Inclusion Pipeline programs. By working together, we can create a greater impact delivering the extraordinary benefits of play to children in need.

To discuss partnership opportunities or make a donation, contact the team at TTFInfo@ToyFoundation.org or 646-520-4845.

DONATE toyfoundation.org/donate

A one-time or recurring gift of any amount is deeply appreciated and makes a big difference.

CORPORATE & FOUNDATION PARTNERSHIP

A year-round financial program partnership can be uniquely designed to align with your business and corporate social responsibility priorities.

PRODUCT DONATION [Donation Form](#)

A donation of toys and other playthings delivers the benefits of play to children while supporting your inventory management.

ENGAGEMENT OPPORTUNITIES

Involve employees in your philanthropic initiatives with customized remote or in-person opportunities.

FOLLOW US

Stay connected to our mission by subscribing to our [mailing list](#) and following us on [LinkedIn](#), [Instagram](#), and [Facebook](#).

2023 Children's Hospital Play Grants Recipients & Project Details

Ann & Robert H. Lurie Children's Hospital of Chicago, Chicago, Illinois

All Kids, All Toys! Inclusive & Diverse Play! – Combined with diversity training, create play opportunities for normalization, representation, and safety within the hospital walls for minority and LGBTQ communities.

Baylor Scott & White McLane Children's Medical Center, Temple, Texas

Sensory Toy Program Expansion – Expand current sensory processing toys and tools program to laboratory, Emergency Department, inpatient units, and other treatment rooms within the hospital.

Children's Hospital at Montefiore, Bronx, New York

Medical Dramatic Play Enhancement – Implement medical play using dolls, puppets and other tools to help educate and normalize medical procedures for child patients.

Children's Hospital at Saint Francis, Tulsa, Oklahoma

Get Up and Move! – Install interactive projector game systems to incentivize patients to be physically active after surgery, as well as serving patients with prolonged hospitalizations.

Children's Hospital of Orange County, Orange, California

Coping Kits for Mental Health Inpatient Center – Provide safe and engaging items to increase positive coping skills for child patients.

Children's Specialized Hospital, Mountainside, New Jersey

Activity Connection Program – Provide recreational activities for children living with special health care needs.

El Paso Children's Hospital, El Paso, Texas

Play Room Enhancement – Enrich patient play with age-appropriate toys to help promote self-management education, trauma-informed education, and age-appropriate play-based activities for children.

Elizabeth Seton Children's Center, Yonkers, New York

Project OPTIC: Optimizing Play with Technology, Innovation and Creativity – Obtain range of specialized, state-of-the-art technology and materials to provide increased positive coping skills for child patients.

2023 Children's Hospital Play Grants Recipients & Project Details

Joe DiMaggio Children's Hospital, Hollywood, Florida

Power of Play Program – Offer patients support, encouragement and motivation through resources and toys to maximize the benefits of medical treatment and improve clinical outcomes while enhancing health and well-being.

La Rabida Children's Hospital, Chicago, Illinois

New Inpatient Playroom – Launch an ambitious nautical-themed redesign of the hospital's inpatient unit: the "S.S. La Rabida." The dedicated playroom will be designed to make play and therapy services more accessible for patients with complex medical needs.

Loma Linda University Children's Hospital, Loma Linda, California

STAR: Safety Trauma Assessment Resource Program – Expand current sensory-awareness program to include sensory safe spaces in multiple child life playrooms and create after-hours sensory boxes for emergency and inpatient populations.

Mary Bridge Children's Hospital and Health Network, Tacoma, Washington

Comfort Kits for Traumatic Times – Create comfort and distraction kits that support mental well-being and self-expression for at-risk populations, including children that have suffered trauma and relocating to new homes, and/or identify as transgender and gender diverse.

MUSC Shawn Jenkins Children's Hospital, Charleston, South Carolina

PLAY for Pandemic Recovery: Oncology Outpatient Clinic Playroom Renovation – Create a therapeutic play environment that provides sensory features and classic toys for mastery and control, technology touches, and expressive outlets for pediatric cancer and blood disorder patients.

Norton Children's Hospital, Louisville, Kentucky

Inclusive Play – Provide our diverse pediatric patient population with safe, appropriate, inclusive toys and activities to help patients feel at home in a place that often feels the furthest from home.

Ranken Jordan Pediatric Bridge Hospital, Maryland Heights, Missouri

Outpatient Therapy Play Based Toy Lending Library – Create a toy lending library that offers age-appropriate play activities and adaptive toys for children with neurologic and orthopedic challenges.

2023 Children's Hospital Play Grants Recipients & Project Details

Spence and Becky Wilson Baptist Children's Hospital, Memphis, Tennessee

PD's Inpatient Playroom – Create a designated play space for patients and families that will also accommodate organized activities and events.

St. Louis Children's Hospital, St. Louis, Missouri

Mobile, Safe, Sensory Toys for Behavioral Health Patients – Provide safe toy kits, therapeutic and sensory toys and portable equipment to patients to help de-escalate emotions and soothe when coping with trauma.

UMass Memorial Children's Medical Center, Worcester, Massachusetts

Extending Our Reach - Play and Playfulness Through Monthly Theme Days – Purchase materials for hospital-wide celebrations and theme days, such as “superhero day,” which help distract from pain and isolation, making hospital staff and settings less threatening.

University of New Mexico Children's Hospital, Albuquerque, New Mexico

Sensory Kits for Kids – Provide sensory items to patients to help reduce fear and anxiety in inpatient and outpatient rooms, operating areas, and pediatric emergency departments.
